PRODUCT CATALOGUE
2020/21

damixa

Beautiful and stylish Danish design, high functionality and premium quality that looks fantastic year after year. This is what characterizes all Damixa's many taps, and has been since Damixa as the first manufacturer in Europe introduced the single-handle mixer tap, and that part will never change.

When you buy a tap from Damixa, you say yes to stylish Danish design that is very durable, and to a product that we have made great efforts to ensure is both logical and easy to use.

DANISH DESIGN & QUALITY

All development, assembling and testing is done at our facility in Denmark. Our effective production lines ensure our quality and we constantly develop and test both existing and new products to make sure that all our products meets the high expectations and standards Damixa stands for.

And the **WINNER** is...

Damixa has 13 times won the Red Dot Design Award, which is one of the most prestigious international design competitions. Expert juries have made awards in the competition for outstanding design achievements which set new standards in the relevant product categories. The Red Dot has become one of the most highly prized and globally recognized seals of quality.

It is a great honour to be among the award-winning products on public display at the Red Dot design museum. Damixa has won the Red Dot Design Award for Merkur, Arc, G-Type, Clover, A-Pex, Fern, Slate Pro, Tradition, A-Pex Showersystem, Pine Showersystem and a Honourable Mention for Clover Easy.

SILHOUET

YOUR HOME. YOUR CHOICE

The design packages for shower baths make it even easier for you to choose your favourite design - and for your plumber to order and install the complete solution. Everything comes in the box - both the internal and external parts.

However, you can also choose among Damixa's many other beautiful design series for your shower. In that case, please ask your plumber to order the internal and external parts separately.

The products have a variety of features to enhance comfort and safety, such as Anti scalding to avoid accidental scalding, Cold Start function and Eco Save that reduce water consumption.

CONDITIONS FOR USING DAMIXA PRODUCTS

Damixa products are designed to suit all types of installations and have been approved in many countries throughout the world. It is important that certain factors are taken into consideration when deciding which Damixa model is best for you.

PRESSURE, CAPACITY AND NOISE CONDITIONS:

Check that the selected model meets your requirements. The high pressure mixer taps usually require a minimum of 120-150 kPa and a maximum of 600 kPa to work efficiently. To enable the 1- and 2- handle mixer taps to cover a very wide pressure area the aerator should be replaced with a flow straightener.

SPACE REQUIREMENT:

Ensure that you have sufficient space for the selected model to be installed correctly. The dimensional sketches and installation instructions, which are included in the box of every mixer tap (and can be found under each product on the website), will provide you with the tap dimensions.

CLEANING:

To clean your Damixa product, wipe it with a soft clean cloth after use. Soapy water or a liquid cleaning agent can be used, but no scouring agents must be used. Grime or deposits of calcium can be removed by using Vinegar or a weak solution of acidic acid, leave this to work for a short while and then rinse, using plenty of water.

PLEASE NOTE: The guarantee will be invalid if the incorrect cleaning material have been used.

Important factors!

Please ensure that your Damixa product does not come into contact with any strong acids, particularly Hydrochloric Acid or any other agents that contain Chloric Chemicals. Colored finishes may fade if exposed to direct sunlight over a continual period of time.

MAINTENANCE PRECAUTION AGAINST FROST DAMAGE:

PLEASE NOTE: When installing a Damixa tap in a summer residence, where there may be a risk of frost damage, turn the mixer tap off at the main supply and then drain any residual water.

THE FOLLOWING WARRANTY PROVISIONS SHALL APPLY TO PRODUCTS DELIVERED BY FM MATTSSON MORA GROUP:

Any products which are found to have manufacturing defects shall be replaced or repaired free of charge upon being returned carriage paid to FM Mattsson Mora Group within a maximum period of two (2) years from the date of invoice.

The warranty shall apply only where the defect is attributable to faulty materials or faulty manufacture and where such defect has not been caused by erroneous handling, incorrect fitting or inadequate maintenance, neglect or unusual wear and tear.

In the event of product defects which are covered by FM Mattsson Mora Group's warranty, the following guidelines should be followed:

Defects found upon receipt, in connection with the installation or after installation shall be reported to the distributor from which the product was purchased with a view to agreeing on any remedying of the defect or return of the product. The distributor shall subsequently contact FM Mattsson Mora Group directly.

TERMS OF SALE AND DELIVERY

INTRODUCTION:

The following terms of sale and delivery apply to all despatches from this company except where an alternative agreement has been established in writing.

PLACING OF ORDERS:

The buyer is responsible for obtaining any necessary import licences, etc. required.

LITERATURE, CATALOGUES ETC.:

Technical information and illustrations in catalogues, leaflets, etc. are subject to alteration and amendment without prior notice.

PACKING:

Unless otherwise agreed in writing, the prices quoted are inclusive of packing or other protection for shipment, which, under normal transportation conditions is required to prevent damage or deterioration of the articles until they arrive at the point of destination stated in the order.

SHIPMENT:

Unless otherwise agreed in writing, articles are sold ex works and the method of shipment is selected according to our best judgement and without responsibility for freight differences, which may occur. Unless it has been agreed in writing to the contrary, the date at which the risk is transferred is fixed according to the international rules of interpretation of commercial expressions (Incoterms) made out by the International Chamber of Commerce, valid at the time of acceptance of the order.

DATE OF DESPATCH:

Unless otherwise agreed in writing, confirmation of an order will be sent stating estimated date of despatch according to our best judgement. We take no responsibility for any consequential losses due to the late despatch.

PRICES:

Articles are normally supplied at the prices stated in quotations or order confirmations. Where a change of price occurs at our works before the date of despatch agreed upon, the prices will automatically be adjusted.

RETURNED GOODS:

Goods shall only be returned via the wholesale plumbing supplier/distributor and subject to prior agreement where FM Mattsson Mora Group specifies the return number which must be enclosed with the return product along with a copy of the invoice. The goods shall be marketable and must be returned in original packaging in undamaged condition. Provided that the goods are returned carriage paid, a 20 % return charge will be deducted.

FREEDOM FROM RESPONSIBILITY:

The company cannot take responsibility for delays, cancellations or other problems resulting from working conflict and other similar circumstances of which the parties are not in control such as fire, war mobilisation or unforeseen military calling of corresponding extent, requisition, confiscation, currency restrictions, revolts and disturbances, lack of means of transport, general shortage of articles, rejection of greater works, restrictions of motive power and defects of deliveries from sub-suppliers or delay of such deliveries being due to some of the circumstances mentioned under this item.

RE-EXPORT:

The goods cannot be re-exported without written agreement.

ARBITRATION:

Any disputes concerning these terms of sale or resulting from additional agreements or concerning legal matters covered, will be settled under Danish Law but cannot be subjected to examination by court and will be settled by arbitration in conformity with Danish Law.

STANDARD FEATURES

**GET AN
OVERVIEW
HERE**

ECO SAVE

Saves water without compromising comfort. Activated and adjusted in the ceramic cartridge. On showers this symbol indicates a pre-installed flow limitatin. This may be disengaged if preferred.

PULL OUT

A flexible hose allowing for easy cleaning of the sink. The shower head can be pulled out up to 40 centimeters. After use, the hose glides back in place by itself.

ECO CLICK

Designed to save water. You will feel a subtle resistance when opening the tap to avoid operation at full flow. Simply click past the point of resistance for more flow.

RUB CLEAN

Easy removal of lime scale from taps and shower heads without tools or chemicals. Simply rub a finger against the rubber surface to remove the lime scale.

ANTI SCALDING

Limits the movement of the tap head/lever to prevent accidental selection of "full hot" water.

X-CHANGE™

A unique base that allows you to change the mixer tap in less than 20 seconds without use of special tools.

FREE

Automatically turns on water when hand movement is registered by the electronic sensor. Auto turn off after a preset time. Touch free, simple and hygienic.

COLD START

Opens for cold water only when the lever is in starting position. Reduces unnecessary consumption of heated water and saves energy.

HIGH FLOW

Fill the tub quickly with this feature that delivers 40 liters of water in just 60 seconds.

360°

The spout can be rotated 360 degrees for optimal flexibility and versatility.

PVD

A unique, metallic surface coating that makes the tap or mixer surface dirt-repelling and more resistant against scratches. PVD coating also ensures that colour never fades - even after many years of use.

DISHWASHER SHUT-OFF VALVE

Cut water supply to the dishwasher easily for enhanced safety and protection against leaks. The shut-off valve is integrated in the kitchen mixer and eliminates the need for a dedicated tap or valve under the sink.

SPRAY MODES

This icon illustrates if there is 1, 2, 3 or 5 spray modes on the hand shower.

damixa

Reservations are made for any misprint, non-delivery, small variations in the appearance of products and sold out items.
