

Quality of life since 1825

Gustavsberg Export Pricelist 2024

Welcome to your new bathroom life

The life you live in your bathroom should be wonderful, refreshing, life-affirming, luxurious, encompassing and inspiring. The porcelain, mixers, furniture units, shower, bathtub and accessories must all be high-quality, with every detail carefully thought out. Everything simply has to work.

The life you live in your bathroom should also be resource-efficient. So it feels good to know that Gustavsberg has led the field in solutions that save energy, water and money since the 1970s.

This catalogue presents most of the items in our collection. You can find even more products, additional information – including manuals, instruction videos and spare parts – online at gustavsberg.com

For tips and good ideas, click the “Inspiration” tab, where you will also find our bathroom planner, which makes it simple to draw your dream bathroom and check which furniture units and other products are the best fit for the life you live in your bathroom.

Welcome!

Toilets, fixtures and urnals

Gustavsberg toilets are made of tightly vitrified sanitary porcelain, which is the most hygienic and durable material of all for bathroom porcelain. Our comprehensive range comprises both wall- and floor-mounted models to accommodate all wishes and needs, as well as toilets for installing in corners and small spaces. We also stock the widest range of Hygienic Flush models on the market – possibly the most hygienic type of toilet in the world.

TO THINK OF

Which model suits you best? Do you want the water trap concealed or visible? Do you prefer wall or floor-mounting? With our Triomont system you can easily install a wall hung toilet even if your current model is floor standing. Neat, comfortable and hygienic. If your home is to have two toilets, why not choose different seat heights?

HYGIENIC FLUSH

Smarter flushing for improved hygiene and easier cleaning. The innovative design with open rim and smooth surfaces eliminates all potential dirt traps. Hygienic Flush minimises the need to use strong cleaning agents.

SUPRAFIX

The patented suprafix system simplifies installation of your wall-mounted toilet and cuts installation time. Built-in wall fitting for invisible installation of wall-mounted toilets. Neater design, free from dirt traps, means improved hygiene and simpler cleaning.

CERAMICPLUS = C+

Many of our products are available with ceramicplus surface treatment. This provides the porcelain with a dirtrepellent surface that prevents the accumulation of limescale and dirt. Ceramicplus is also good for the environment, as it means that you can use a milder detergent – and less of it! – When cleaning.

NO ROOM FOR DIRT

On toilets with porcelain covers, the “seam” between the seating ring and the cover has been moved up. A soft curve in the porcelain simplifies cleaning and prevents the build-up of dirt. The foot of the toilet is smooth to facilitate cleaning and improve hygiene.

QUICK RELEASE

With quick-release functionality, you can remove the toilet seat from the bowl easily and without tools. The seat and toilet can then be cleaned separately, which is both simpler and more hygienic.

QUIET AND DRY QUIET AND DRY

The fully encompassing porcelain cistern conceals A separate inner tank. This reduces noise and counter-acts the build-up of condensation on the cistern, helping prevent the accumulation of dust.

SOFT CLOSE

Hard, solid toilet seats have previously been associated with loud noises when they are lowered. Soft close functionality has solved this problem through the introduction of a damper that is built into the seat to ensure that it can be lowered gently and quietly. The damper has no direct contact with the porcelain, which facilitates cleaning and makes the seat more hygienic.

SENSOR-CONTROLLED FLUSH

A touch-free flush function means improved hygiene. Using an app, the function can be set to flush automatically when the user walks away, or to flush at hygienic intervals if the toilet is used infrequently. Touch-free is a smart solution for all users, both at home and in public environments.

Overview flush buttons

- All flush buttons for Gustavsberg's floor mounted toilets in today's range
- Flush buttons for older / discontinued models and series of toilets can be found at www.gustavsberg.com/en/products/spareparts/

The advantages of porcelain

"Genuine vitreous china"

Simply means tightly vitrified sanitary porcelain, the most hygienic and durable material of all for bathroom porcelain. It provides a strong, resistant surface that stands every day use, year after year.

Hygienic

The surface provides a hard and tight surface that makes it withstand scratching, easy to keep clean and is therefore hygienic.

Ceramic plus

Many of our products are available with ceramicplus surface treatment. This provides the porcelain with a dirtrepellent surface that prevents the accumulation of limescale and dirt. Ceramicplus is also good for the environment, as it means that you can use a milder detergent – and less of it!

Persistent

High resistance to the chemicals found in, for example, cosmetics, styling products and other things that are common in the bathroom. Not even nail polish leaves any marks on the porcelain surface.

Hygienic flush

Smarter flushing for improved hygiene and easier cleaning. The innovative design with open rim and smooth surfaces eliminates all potential dirt traps. Hygienic flush minimizes the need to use strong cleaning agents.

Bathroom sinks

A good washbasin must be functional, easy to clean and hard-wearing – but also neat and attractive. Only porcelain of the highest quality – as used in washbasins from Gustavsberg – can meet all these requirements. Big bathroom? Small bathroom? Corner, elongated surfaces or tight space? No matter what your bathroom looks like, we can almost guarantee that you will find a Gustavsberg washbasin to match it. Don't forget to check out our washstands with full-cover washbasins, which you will find under our furniture collection. One of these may well be an even better solution for your bathroom.

THINGS TO THINK ABOUT

Large bathrooms have plenty of room to install two generous washbasins so as to eliminate the problem of morning queues. Small bathrooms, however, sometimes barely have space for a single basin. In this case, what you need is a smaller model or one designed for positioning in a corner. Whatever your situation, you are sure to find the right washbasin at Gustavsberg. It may also be useful to consider laying out your bathroom with an eye to the future – when you may not be as mobile as you once were. Our broad collection also contains a number of washbasins for special needs.

CERAMICPLUS = C+

Many of our products are available with ceramicplus surface treatment. This provides the porcelain with a dirtrepellent surface that prevents the accumulation of limescale and dirt. Ceramicplus is also good for the environment, as it means that you can use a milder detergent – and less of it! – When cleaning.

FLEXIBLE BOLT SPACING

Flexible bolt spacing makes it possible to replace your existing wall-mounted washbasin with a new model, regardless of whether the distance between the bolts on the wall is 280 or 350 mm.

Bathroom sink Nautic

- Easy-to-clean, minimalistic design in a range of sizes, 40–60 cm
- Elliptical basin with generous flat surfaces
- For bolt or bracket installation
- C+ as an option for simple and eco-friendly cleaning
- Mixer and bottom valve are not included, must be ordered separately. See mixer section

Furniture

A bathroom needs to be functional and practical for everyone in the family. It should also serve as a tranquil oasis to which you can retire to recuperate after a demanding day. Both form and function should invite you in for a sweet and simple sojourn in the bathroom.

Bathroom furniture from Gustavsberg features timeless Scandinavian design and maintains a superior level of quality. All materials have been tested to ensure they can withstand the humid environment of a bathroom in use. Our unique spare parts guarantee and complementary products ensure that you and our products can live a long life together. The only question is:

ARE YOU TEAM ARTIC OR TEAM GRAPHIC?

Artic is a range of furniture for the more spacious bathroom, making it easy to furnish the room with elevated design and a superior sense of quality. The units are “pure Scandinavian” in their design idiom, with the emphasis on straight lines and right angles. Artic is available in white, peach, black ash veneer and ash grey. The counter top washbasins are available in glossy white, matt white or matt black glaze.

Graphic, too, radiates Scandinavian quality and feeling for form, but the focus here is on maximum storage in minimum space. The furniture units are neat and compact, based on modules that it is simple to combine. Graphic is available in white, grey, green and beige. The counter top washbasins in the Graphic series is always in glossy white.

THINGS TO THINK ABOUT

Gustavsberg furniture units are built to withstand the ravages of time, but don't forget that both your own life and your bathroom-related needs may change over the years. You will never regret investing in quality and smart storage solutions.

SOFT CLOSE FURNITURE

If the acoustics in a bathroom can result in loud, sudden noises being particularly irritating. With soft-close functionality, cabinet doors and drawers close gently and quietly.

MOISTURE RESISTANT

The wood used in Gustavsberg bathroom furniture has been developed and tested for high durability in hot, humid bathroom environments. Smart design – e.g. The way our washbasins extend beyond the edge of our washbasins – protects the furniture from splashes and eliminates unnecessary moisture traps.

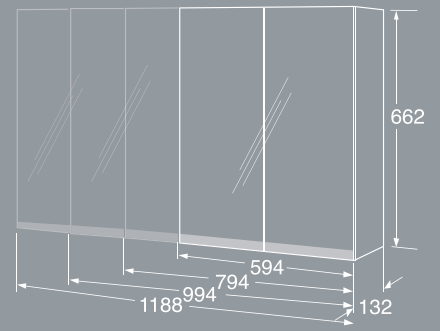

Artic bathroom furniture

Artic's timeless design makes all bathrooms more beautiful. Although Artic is a cultured range, the cabinets can easily 'swallow' everything you need to keep in a bathroom.

The units are based on standard dimensions and feature generous storage areas and surface space, as well as a host of smart details.

Cabinet doors and frames of the same colour create a harmonious bathroom.

Graphic bathroom furniture

Graphic features slightly daintier dimensions than most other bathroom furniture units. The design is based on the repetition of graphic shapes and dimensions; for example, three wall cabinets on top of each other are exactly the same height as a high cabinet, making it easy to furnish with Graphic. Moreover, wall cabinets and high cabinets are available in two depths to suit both large and small bathrooms. Cabinet doors and frames of the same colour create a harmonious bathroom.

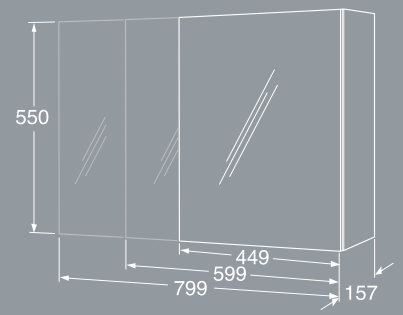

Graphic Base bathroom furniture

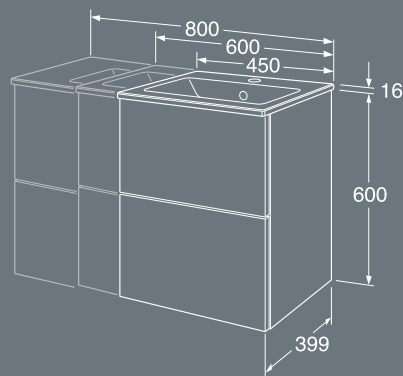

Our popular Graphic range with Graphic Base: a simpler design and a lower price – so that even more people can enjoy the benefits a fully functional bathroom.

While there are still all kinds of smart Graphic solutions to choose from, Graphic Base is only available in white, and only with a smooth door finish. This, in turn, simplifies the choice of mixers and other accessories. We want it to be simple and straightforward for everyone to put together a neat and functional bathroom.

Mirrors and lighting

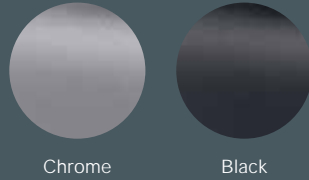

Don't forget about the lighting when planning your bathroom. Weak light – or excessively bright light – will make the bathroom environment dull and sad. A good rule of thumb is to have at least one light for 'general lighting' and one directed light for 'face work'.

Make sure to include mirrors in your calculations as well. It is quite usual to install a mirror above the washbasin, but if you have room, use mirrors as furnishing details – above a wall cabinet, for instance. Mirrors reflect light and increase the feeling of space in the room.

Artic Pro furniture for laundry areas

With Artic Pro – Gustavsberg's new range of products intended for the laundry area – you can make your laundry room or the laundry section of your bathroom as stylish as the rest of the bathroom.

HANDLES AND KNOBS

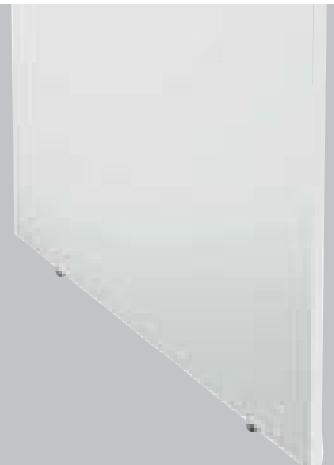

All handles and knobs fit all our bathroom furniture units. Several of the knobs can also be mounted on walls as towel hooks.

The wall cabinet – in white – is slightly taller than most other similar cabinets in order to facilitate storage.

Worktop sections in white or matte black are available to order in bespoke sizes to fit your laundry room precisely.

A white side section with adjustable feet effectively conceals the washing machine or laundry basket from the side.

Artic Pro wall cabinet

- Soft-close door
- Two movable wood shelves
- Ideal for use as a top cabinet in a laundry room
- Installation system for quick and easy fitting on the wall
- A variety of handles in different styles are available as extras
- Made of bathroom-class material for humid environments

Plan with the bathroom planner

With Gustavsberg's bathroom planner, you can draw up your bathroom and test which furniture and other products you want in your bathroom. You will find the bathroom planner, inspiration and information about our wide range for the entire bathroom on our website.

Welcome to [gustavsberg.com](https://www.gustavsberg.com)

Mixers

Gustavsberg has been a world leader in technology that saves water, energy and money since the 1970s. Today, we enjoy a deserved reputation for our environmentally certified and -declared products, and many of our mixers meet the requirements of various environmental assessment systems. Our plant in Vårgårda, Sweden, where we have been manufacturing mixers since 1920, is ISO certified in the fields of quality, the environment, energy and work environment.

Selecting a Gustavsberg mixer is a simple way to make a sustainable and confident choice. Not forgetting the fact that it will be an ornament to your bathroom.

THINGS TO THINK ABOUT

Spend a little time studying all the innovative functions of our mixers (see below). You are sure to pick up on some smart function or other that will facilitate or enrich your life in the bathroom. Do you have young children? Then choose a smart thermostatic mixer that regulates the water temperature and eliminates the risk of scalding.

COLD-START

Innovative technology ensures that the mixer supplies 100% cold water from its start position – facing forward – eliminating unnecessary use of hot water. Saves energy and money every time you use it.

EVEN TEMPERATURE

Thermostatic mixers feature built-in automatic scald protection and hot-water safety stop with type-approved non-return valves. This means that the mixers react quickly to the changes in temperature and pressure that can arise in the water flow, and even out the differences.

ELECTRONIC SHUT-OFF VALVE

The smart self-closing valve increases water safety in your kitchen. Choose between three timing settings when the valve is open. A discreet led lamp (green, blue, yellow) communicates your selected time setting and turns off when the valve is closed.

QUICK FIT

The mixer is installed using a quick fit nut that is simply pushed up to its stop position and then tightened. This smart solution simplifies installation and saves time, money and sore backs!

ADJUSTABLE FLOW

A smart eco-function that allows individual setting of the max flow of the mixer. This makes it simple for you to adjust the max flow, saving water and energy on your own terms. The function is fully adjustable for individual setting.

SAFE TOUCH

All thermostatic mixers from Gustavsberg are fitted with a safe touch function, which means they are designed to lead the hot water along the rear side of the mixer. This minimises the heat level on the front side of the thermostat, thus reducing the risk of burns.

LEAKAGE BREAKER

If water comes into contact with the detector, the valve closes immediately and the leakage breaker's red led lamp will flash. Even if the valve is closed, the led lamp flashes if there are leakages from other devices.

SMART INSIDE

Thanks to the smart, replaceable components, the mixer can be upgraded in the future to add new, even smarter functions. This extends the mixer's lifetime and makes it even more sustainable.

ECO-FLOW

The mixer features an effective, optimised flow of water. You therefore enjoy the same wonderful, functional experience as always, but using less water and energy. Kind on the environment – and on your wallet.

LEAD-FREE

The mixer is made of material whose total weight includes less than 0.1% Lead. As such, it is an eco-smart mixer that meets stringent requirements with reference to lead content. The mixer features a discreet laser marked symbol on its rear side to facilitate traceability.

DUAL FUNCTION

The mixer is operated as normal with a lever, but is also fully control-lable with the digital control. A led light communicates the selected temperature. For smarter use, flow and temperature can be program-med in three favourite settings that are activated via quick select.

Estetic shower mixer, rotatable spout with reverse function and with smart click-on shelf.

Estetic washbasin mixer

- Organic design idiom that matches bathrooms of all kinds
- The extra tall model suits both kitchen sinks and top-mounted bathroom sinks
- Adjustable flow - facilitates, adjustable maximum flow
- Adjustable max. temperature for improved scald protection
- Type approved flexible water connection for easier installation
- Available in several color options

Shower doors and walls

Choose between polished or matt black profiles in a wonderful design. High quality, durable materials and smart solutions make it simple to find precisely the right shower from Gustavsberg:

- Adjustable wall profiles guarantee a level shower, even if the bathroom walls are not entirely straight.
- Doors that can open outwards or inwards save valuable space.
- Almost all our showers are designed for right- or left-handed fitting.
- Unequal-sided dimension combinations offer an optimal shower solution for all bathrooms.
- Smart elevating brackets lift the doors when you open them.

THINGS TO THINK ABOUT

Installing a new shower wall requires preparation and planning. In many bathrooms, the shower corner has to fit in with a washbasin, a toilet and sometimes a washing machine as well. So measure your shower space carefully – to make sure there are no obstacles that prevent you opening the doors. If there are, a foldable shower door can often be the solution.

FOLDABLE DOORS ARE NOT REVERSIBLE

Our folding doors are the only models that are not reversible for right-/left-hand installation. They are, however, available with uneven dimensions to the right and to the left, so it is important to measure your shower space carefully. Make sure to measure from the front, i.e. where you step into the shower. Turn the page to see the combination options.

REVERSIBLE

Shower doors, reversible for right/left-hand installation; they can open both outwards and inwards, which helps save precious space.

ELEVATING HINGE

The elevating hinge is a smart detail that lifts the shower walls 5 mm every time you open and close it. This minimises wear on both the floor and the shower doors. A practical function that provides a sense of authentic luxury.

The lack of a floor plinth makes the showers easy to use and easy to keep clean. The doors close with a tightly closing magnetic strip and have a strip against the floor that stops water splashes.

Mounting options

Our shower walls and doors can be easily combined in different dimensions and thus adapted to the specific needs of each bathroom.

* For exact mm measurements and adjustability for each door model, see the range pages.

Square folding doors for corner fitting

- Folding door that takes up less space
- Ideal for use where space is at a premium – as the foldability often solves the problem
- Non-reversible doors: choose from the models designed for right- and left-hand installation, respectively
- Corner configuration dimensions "Left" x "Right" viewed from in front, i.e. on your way into the shower
- Pre-fitted door profiles for quick and easy installation
- Toughened safety glass, 6 mm
- Polished chrome profiles, with the door handle integrated into the glass
- Elevating hinges lift the door 5 mm when opened
- 20 mm adjustable wall profile, which ensures a level shower even if the walls are angled
- Opening angle: 180 degrees
- Unequal-sided dimension combinations possible
- Extra-width profile, 20 mm as an optional extra
- No floor profiles means a shower that is hygienic and easy to clean, but the solution does require an incline towards the floor drain
- Space for cutting holes for external pipework

Right or left?

NON-REVERSIBLE MODEL Our folding doors are the only shower models that are not reversible for right-/left-hand installation. However, they are available in unequal dimensions on the right and left-hand sides. Here, it is important to look at things from the correct side when measuring your shower space. Make sure to measure from the front, i.e. where you step into the shower. What combination possibilities you have to choose from, see page 82.

Square shower wall

- Reversible for right-/left-hand installation
- Tempered safety glass, 6 mm
- Polished chrome or matt black profile and wall brace
- Adjustable wall profile, 20 mm, for a straight shower even with angled walls
- The brace can also be used as a shower curtain rod
- Space to drill holes for externally routed pipes

Mixer and shower set

Match your new shower doors and walls with our wide range of shower mixers, shower sets and rain shower heads for a sweet, neat and functional set-up in your bathroom. No matter whether your main interest is in form, smart functions for saving water and energy or "simply" good quality, Gustavsberg lets you be price-, eco- and design-conscious at the same time.

Bathtubs

A hot bath lowers the pulse and boosts circulation in the body. Few things are as de-stressing and relaxing as slipping into a warm bath after a long, hectic – and possibly chilly – day. That's why you need to take care when choosing your tub, because the model you select will have to perform heroic deeds no other piece of furniture in your home can handle. What's most important: appearance, size or function? Or is everything equally important?

TO THINK OF

Big or small? Built-in or free-standing? In this catalogue you will find all kinds of standard bathtubs from Gustavsberg, take for example the combi-tubs, they are perfect for people who also use their bathtubs as their shower. These tubs have a flat section at the foot end, and the drain is positioned in the middle. The head end is gently angled and comfortable. Duo bathtubs are ideal for people who appreciate square design. Perfect for two people to bath together; features two sloping head.

GLAZEPLUS

Our bathtubs are available with an extra surface treatment called "glazeplus". This is a crystal-clear polymer film that protects the surface of your bathtub against dirt and limescale deposits – which facilitates cleaning and reduces the amount of detergent you need to use.

ANTI-SLIP

The bathtub is available with an anti-slip treatment where quartz sand has been burned into the enamel in an aesthetically neutral pattern. The surface counteracts the risk of slipping when entering or leaving the bathtub. Moreover, it is located at the foot end of the tub so that it does not affect the overall bathing experience.

SUPPORT HANDLES

You can order the bathtub with support handles on the rim to improve safety and ease of use.

PLUS5

An overflow outlet on the bathtub rim prevents the water from overflowing – but means a lower water level when you bathe. Gustavsberg has solved this problem with the smartest overflow outlet on the market: the plus5 system lets you raise the valve 5 cm with a simple movement – for deeper water and a more luxurious bath. An overflow outlet is an insurance requirement for fixed installation tubs in bathrooms without a floor drain.

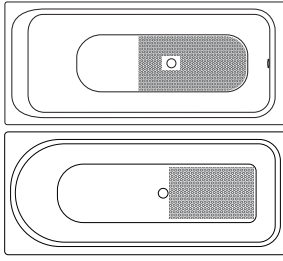

Basin models for enamelled titanium steel bathtubs with front panel frames or feet

- Gustavsberg has many models and sizes, intended for installing with full- or half-front panels frames.
- Our tubs are made of enamelled titanium steel of the highest quality.
- The tubs are simple to install and easy to clean.
- Handles and anti-slip bottom surface treatment available

as options for a safer bath.

- Glazeplus available as an option for fast, gentle cleaning

Placement anti-slip treatment

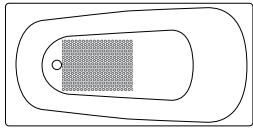

Basin models

Combi-tubs are perfect for people who also use their bathtubs as their shower. These tubs have a flat section at the foot end, and the drain is positioned in the middle. The head end is gently angled and comfortable.

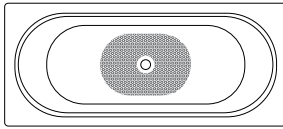

Available in sizes 1500 x 700, 1570 x 700 and 1600 x 700 mm.

Bathtub models 1400 and 1700, and frontless tub 1571 feature a traditional basin shape. It has a depth of 420 mm, which means that it is comfortable and practical for both baths and showers.

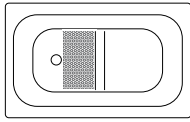

Available in sizes 1400 x 700 and 1700 x 700 mm.

Frontless bathtub in size 1570 x 700 mm.

The Duo tub is designed for two people bathing at the same time with its two angled head ends and centred drain. Depth 420 mm.

Available in size 1600 x 700 mm.

Sitting tub model 1051 is designed for people who have a really small bathroom but who cannot do without a bath. Depth of the sitting area is 310 mm. Depth of the foot area is 420 mm.

Available in size 1050 x 650 mm.

The Claw-foot bathtub features an oval basin with two enclosing head ends and a centred drain. It has a depth of 420 mm.

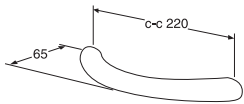

Available in sizes 1580 x 680 and 1680 x 730 mm.

Bathtub 1300 features a traditional basin shape. It is comfortable and practical for both baths and showers, with a depth of 420 mm.

Available in size 1300 x 700 mm

Accessories

Our bathroom accessories are created to provide long, faithful service in a humid environment. The units follow the same refined, Scandinavian design idiom as other products from Gustavsberg, so you don't have to scrimp on quality, function or form when applying your own personal style to your bathroom. Take a little time to choose handles and knobs for your drawers and cabinets, as they play a significant role in the overall impression. To see our full range of handles and knobs, please turn to the furniture pages. Several of the knobs can also be used as towel hooks on walls.

TO THINK OF

Gustavsberg supplies a well thought-out selection of accessories. Always go for quality that lasts and design that you will enjoy for years and years. And make sure to seal all holes and cavities in bathroom walls thoroughly with silicone. Make sure not to damage the damp course in your bathroom. If you drill any holes, make sure to seal them tightly. Ask your reseller or fitter about the conditions that apply to your wall material. Plan carefully, and position your accessories with care.

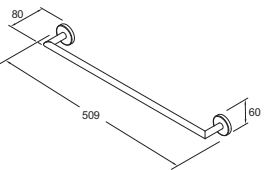

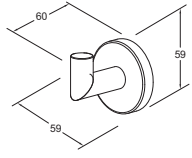

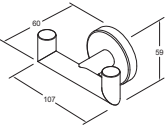

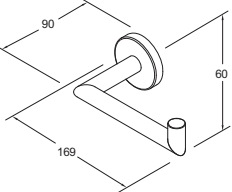

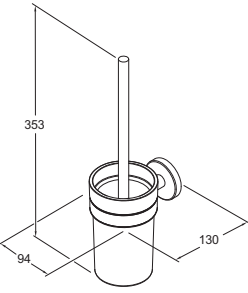

Bathroom accessories

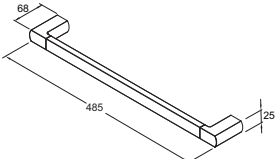

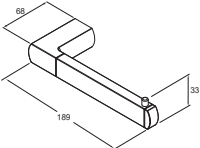

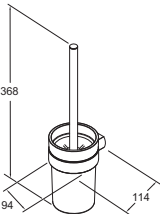

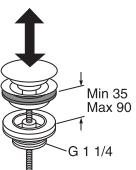

Round

- Design featuring rounded lines
- Chromed surface finish
- Can be fitted with screws or glue

Warranty conditions

Warranty conditions

Warranty for Gustavsberg's products is valid from the date of purchase and warranty covers defects in a product caused by defects in design, material or workmanship which occur:

- mixers - within five (5) years of purchase. The warranty applies to defects that cause the mixer to drip (leak) when the lever is in the closed position;
- toilet mechanisms, fixtures, seats, bathtubs, showers, showers walls/doors, accessories, outdoor faucets, fittings and furniture - within two (2) years of purchase;
- ceramics within five (5) years from purchase.

A receipt or invoice must be kept to verify the date of purchase of the product. Please carefully check the product at the point of purchase and follow the installation, operation and maintenance rules. Properly installed and maintained, the product ensures its longevity. Products with visible quality defects may not be mounted or installed. The warranty applies only to genuine Gustavsberg parts.

The warranty does not cover defects caused by incorrect or incomplete installation, maintenance, use, repair or any other external cause of the product after the product has been delivered. The warranty does not cover defects in water quality, normal wear and tear and depreciation. Gustavsberg is not responsible for the suitability of the products for the functions requested by the buyer.

Complaint notification

The Buyer (Customer) must report the defect immediately after it has occurred and must provide a receipt/invoice for the product showing the date of purchase.

Detailed complaint notification information is available on Gustavsberg web-sites:

Estonia <https://www.gustavsberg.com/ee/tugi/garantii-ja-reklamatsioonid/>

Latvia <https://www.gustavsberg.com/lv/palidziba/garantija-un-serviss/>

Lithuania <https://www.gustavsberg.com/lt/prieziurairaptarnavimas/garantinis-aptarnavimas/>

Think Gustavsberg

FOR THE ENVIRONMENT

Our products start saving water and energy as soon as you install them in your bathroom, but our work to boost sustainability starts as early as the production phase: Gustavsberg sells environmentally certified and -declared products, and complies with the LEED, BREEAM and *Miljöbyggnad* (Green Building) environmental assessment systems, as well as with the EU Taxonomy. Our operations are ISO certified in the fields of quality, the environment, energy and working environment.

FOR YOUR FINANCES

A Gustavsberg bathroom is an investment in top quality, durable material, smart functions and timeless Scandinavian design that will last for years and years. And all the time you are enjoying the sweet and simple life in the bathroom, our products are saving water, energy and money.

FOR THE QUALITY

A bathroom has to last for years and years. This applies not only to the products' material and function, but also to their design. Your bathroom needs to be enduringly inviting, refreshing and attractive. A quick tip: As all the components that make up your bathroom are exposed to the same wear and tear, it is essential that all the products you choose maintain equally high quality.

FOR THE SMART FUNCTIONS

As you read this brochure, you will encounter numerous symbols for the smart functions our products contain. These functions perform many different roles, but a trait they all share is that they make your life in the bathroom even simpler and even more enjoyable.

FOR SERVICE AND SPARE PARTS

Gustavsberg's unique spare parts policy guarantees that parts for your product will still be available for ten years after we have stopped making it.

If anything should go wrong in your bathroom, visit our website at gustavsberg.com and watch our instruction videos to help you pinpoint the problem.

BECAUSE OF THE BROAD COLLECTION

We have developed our products to cover requirements in every imaginable kind of bathroom, including public bathrooms and bathrooms in care environments. Consistent high quality, timeless Scandinavian design and a pared-down design idiom makes it simple to combine them all.

FOR THE SIMPLEST, SWEETEST LIFE IN THE BATHROOM

Ever since 1825, Gustavsberg has been a solid part of the community and played a key role in people's hygiene, well-being and life quality. Today, we are a complete supplier of bathroom products and of the simplest, sweetest life in the bathroom – now and in the future.

Welcome to gustavsberg.com!

BE INSPIRED

Visit our website for additional inspiration and to find our complete range for the bathroom.

SUPPORT AND SERVICE

Our website also contains manuals and instruction videos, as well as tips and hints to help you use and care for your Gustavsberg products.
